

## Studio Health & Safety Protocols for TB Students and Families

### BUILDING AND DANCER REQUIREMENTS:

- **MASKS ARE REQUIRED while in the studio and public common areas.**
- Enter through front of the building going one way back to studios. Exit through the side door on Nantuckett Street side with social distancing and instructors guiding Levels 3 and under.
- Check schedule for new times for classes. Arrive only 10 minutes before class begins. We have staggered most classes and have caps on class sizes.
- Enter building and use hand sanitizer.
- Possible temperature check or questions regarding symptoms or contact with others affected by COVID19. Parents and students will also be responsible for self-monitoring of symptoms. If there are any concerns, please stay home.
- Hand Sanitizers are available throughout the building and in the studios.
- Tape marks are at least 6 feet apart. Dancers are to remain on them when stretching or waiting to enter a class.
- Bring a yoga mat or large towel for stretching in studio. Bring big water bottles, fountains are disabled per ODH recommendations. Bring a small towel in. No sharing of anything with other students.
- Once in studios, tape on barres and floor distinguish at a minimum six feet between the marks. At barres, students must stay on that tape, same in center.
- All students will use a wipe to sanitize barres before class.
- Dressing areas are closed. Come in dance attire. Only 3 in the restrooms at a time. No lines allowed in bathrooms to wait for a stall. Wait in the Hallway keeping social distancing.
- All faculty and staff will be consistently going through all areas to wipe down common areas, i.e. Stereos, handles, knobs, switches etc.
- Signs are posted to remind students of social distancing measures.
- Wash hands frequently and thoroughly every day whether in the studio or at home.
- Please keep a positive attitude. We are in this together and any feelings regarding masks must be respected, as we have your best interests at hand and we are all inconvenienced by them. It is temporary.

### FOR PARENTS:

- Check schedule. Kids only should arrive 10 minutes prior to class. Drop them off at front and make sure they leave enough time between students to enter building. At no time should there be congregating of students at front entrance or back exit or in the waiting areas.
- Be prompt picking up your students at the back door.
- **Parents are not allowed in the studio, except for students 6 and under and only 1 parent (with a mask) per student and you must maintain social distancing (siblings are not permitted).**
- Help your student remember to always social distance, be on time in dance attire, bring a big water bottle, a yoga mat or large towel, wear masks on entering and in all common areas, including the studios.

***THINGS ARE CHANGING DAILY. PLEASE BE FLEXIBLE AND BE WILLING TO UNDERSTAND THAT WE NEED TO LIMIT OUR CLASS SIZES, BOTH IN-STUDIO AND FOR THE VIRTUAL ONLY OPTION.***
